The Applicant hereby applies for a water service permit for the above-described real property upon the following terms and conditions.

1. Domestic water service shall be provided only to the property described above.
2. The Applicant agrees to abide by the rules, regulations and policies of the Joint Powers Board.
3. The Applicant agrees to pay the entire cost of extending water mains and/or service lined to his property, over and above those costs borne by the Joint Powers Board, and in accordance with the Joint Powers Board's policies, specifications and standards. Upon acceptance of the work by the Joint Powers Board, the newly-constructed mains shall become the property of the Joint Powers Board with the responsibility for the water service line remaining with the Applicant.
4. Once connection has been made to the Joint Powers Board's water works system, the owner and his successors and assigns shall be obligated to henceforth pay the property's proportionate share of the Joint Powers Board's indebtedness, as determined by the Joint Powers Board, and regardless of whether or not water is being used at the property.
5. This application is valid for a period of up to two (2) years from date of submittal. If the tap is not in place and the water is not in use by that time, any water service permit issued shall become null and void. This permit may be extended in time at the request of the owner and after the approval of the Sheridan Area Water Supply Joint Powers Board.
6. If a permit is issued the Applicant understands and agrees that the above-stated terms and conditions shall be binding upon all successors in interest as to the described real property.
7. All Applicants are advised that any application submitted on/after August 30, 2007 may be subject to the increased application rates currently being considered by the Sheridan Area Water Supply Joint Powers Board.
