The parties agree as follows:

1) OBLIGATIONS OF COUNTY.

- a) County agrees, to the extent County has authority to do so, to grant Grantee each *Sheridan County License Agreement*, which has been properly applied for, and which has been approved by County.
- b) Each nonexclusive license is granted for the purpose of laying, constructing, maintaining, operating, replacing, increasing the capacity of, repairing and removing and doing all necessary work in connection therewith a utility, facility, or device or part thereof ("utility").
- c) Each grant is subject to Grantee moving or relocating its utility if County shall construct, reconstruct or move any portion of the County road wherein a license is located. Grantee, when requested by County, shall move the utility without delay and at no cost to County. The parties specifically agree to immediately amend each *Sheridan County License Agreement* to reflect each new crossing location description. The remainder of this Agreement shall remain in effect. County shall not unreasonably request such movement or relocation.

2) OBLIGATIONS OF GRANTEE. In exchange for the above license grant, Grantee shall:

- a) Pay an inspection fee to County for each license granted.
- b) Place any utility, future alterations, or expansions in each crossing location in a manner that conforms with recognized standards, applicable federal, state, and local laws, codes, ordinances, and resolutions current at the time placement is made.
- c) Construct the installation in a safe manner, to not interfere with or endanger public travel and to perform all work in a neat and workmanlike manner and that each crossing location will be cleaned and left in a condition equal to or better than the original condition. The applicant will fully protect the traffic on the roadway during construction by proper barricades, flagmen, and/or lights.
- d) Responsible for installing a crossing or lateral transition through each crossing location in accordance with this Agreement.
 - i) The grantee shall furnish industry accepted post markers at property lines for all underground crossings.

 - iii) The grantee shall be responsible for repair of roadways or other improvements if damage occurs to such roadways or improvements as a result of the grantee's use of a license.
 - iv) The County may require the installation of a casing pipe on bored installations. When a bored crossing is requested, the difference in outside diameter of the bore hole and outside diameter of the pipe must be approved by the County Public Works Department.
- e) Place any utility, alteration, or expansion in a manner and at a time to minimize disruption of each crossing location.
- f) Place gravel on approach for 100 feet outside each crossing.
- g) Not place utility within the traveled roadway or five feet from each shoulder, except lines crossing roadways.

- i) Bury utilities four inches in diameter and less at a minimum depth of 48 inches from the bottom of the borrow ditch to top of the utility. Bury utilities greater than four inches in diameter at a minimum depth of 60 inches from the bottom of the borrow ditch to top of the utility, with the exception of plowed cable installations which shall be placed to a minimum depth of 30 inches. In joint open trench, installation shall be to a minimum depth of 36 inches to the top of the highest utility.
- j) Restore all disturbed surfaces to their original condition. All loose rock shall be removed. Reseed with seeding mixtures and requirements as set forth by the County Engineer.
- k) Compact and grade all trenches to the standards set forth in the county Road Fund Manual or succeeding current document. If settlement occurs, Grantee shall re-compact the area within five

days after notice from the County to do so. Whether settlement has occurred shall be in the sole discretion of County and County shall notify Grantee of such occurrence. All compacting and re-compacting shall be to the satisfaction of County. Provide compaction tests as required by County. A fee will be charged for repairs, if such repairs disturb the roadway surfacing.

 - c) ASSIGNMENT. This Agreement is not assignable without the prior written consent of the parties which shall not be unreasonably withheld.
