

## **Holloway Avenue Reconstruction Project**

### **2017 Newsletter #20**

Message from Sheridan County and the City of Sheridan, July 26, 2017:

- Construction of the Holloway Avenue Reconstruction Project is nearly complete. The contractor will be working on completing driveway approaches, retaining walls, reclamation and general cleanup over the next couple of weeks.
- **Holloway Avenue is now open to traffic.**
- The contractor will be completing miscellaneous work items throughout the project. Exercise caution if travelling through the project area. While construction is occurring near your home, for your safety you may be asked to find alternative parking locations outside of the construction zone. This is to ensure safety for the public and also allows the contractor to continue work with minimal interruption.
- **NEW CONCRETE.** Please do not place salt on any new concrete for at least one (1) year, as it can cause damage to the concrete.
- Please contact either Chad Reed or Leland Fabel at the phone numbers below should you have any questions.
- **CONTACT INFORMATION.** The project manager for the Engineer is Chad Reed of WWC Engineering. Chad can be reached at 672-0761 ext. 127.
  - A project representative from WWC Engineering (Leland Fabel, 406-871-0369) will typically be on-site for immediate assistance.
- Please be aware that traffic route and parking modifications will need to occur during construction.
- **Traffic control will be required throughout the duration of the project. Please be cautious around the work zone as construction activity progresses.**
- **Thank you for your patience and cooperation over the course of this construction project.**

Communication is vital on a project like this – especially when it affects your business or residence. We have asked the engineers on the project to keep the lines of communication with you open:

- For the most up to date information, check out the construction project page at [http://sheridanwy.net/construction\\_project/holloway-reconstruction-project](http://sheridanwy.net/construction_project/holloway-reconstruction-project)
- If you would like to receive these updates via e-mail, please contact Chad Reed with WWC Engineering at [creed@wwcengineering.com](mailto:creed@wwcengineering.com) or 672-0761 ext. 127.
