

## Request for Proposals – Hazard Mitigation Plan

The Wyoming Office of Homeland Security is actively seeking proposals for two regional hazard mitigation plans, one for Region 1 (Sheridan County is in Region 1) & one for Region 2, with proposals accepted through 2 p.m. Mountain Time, August 30. The RFPs are posted on the State of Wyoming's Purchasing web site.

Contractors interested in submitting a proposal will need to register their business if they've not done so before, and once registered can obtain the RFP and submit a proposal. The two RFPs (one for each regional plan) are available on the web site now.

Here's a link to the web site to register and review the RFPs:
